## Obwetchuck Mountain to Be Developed

Obwetchuck mountain, South Windham, the natural beauty spot of Windham county, will soon have a residential section of the old town of Windham. Its owner, Dr. John J. Donohue, of Norwich, who until some five years ago owned the mountain in the large hotel on the summit of the mountain that was destroyed by fire April 5, 1897, has had the land surveyed by Civil Engineer Fred J. Kromer of Norwich. The work was completed by Mr. Kromer Thursday. Dr. Donohue was in Willimantic Friday and said that in a short time the land will be platted out, streets staked out and building lines established. The tract of land comprises about nine acres, and there will be five streets, the names of which have already been decided upon. The long thoroughfare that winds up the hill from the trolley line around the property, connecting with Machine Shop Hill, will be named Obwetchuck avenue. ## Soda crackers are extremely sensitive to moisture.

Before the advent of Uneeda Biscuit the only persons who ever tasted fresh, crisp soda crackers were the people in the bakeries.

Imagine their trip from bakery to your table; exposed to air and moisture—kept in grocers' boxes and finally in a paper bag on the shelf in your pantry. Could they be the same as they were the day they were baked?

Now that we have Uneeda Biscuit—we have perfectly baked soda crackers—perfectly kept.

No moisture can reach them—no contaminating influences can affect their flavor—their goodness is imprisoned only to be liberated by you for you when you open the package.

Always in the moisture proof package. Never sold in bulk. 5 cents a package.

This will make the total numerical strength of the students amount to over 400. A number entering in advanced standing has also helped swell the total, and when Wesleyan opens next Wednesday, marking the beginning of Dr. Shanklin's third year in the presidency, all records for registration for the college are expected to be broken.
